

# REGISTER UPDATES

## **MGB** JANINE PRATT [janinepratt@btinternet.com](mailto:janinepratt@btinternet.com)

Firstly I would like to thank John Venables for having been the *Safety Fast!* scribe for the past few years - I am looking forward to trying to fill a pair of very experienced shoes!

By way of introduction, we have had our current MGB for 10 years and we have enjoyed driving it all over the country and on a number of trips to Car Club events around Europe. Fortunately I have a lovely husband, Nigel, who maintains the B so that I can just get in and do the fun bit of motoring! Of course I am happy to provide 'First Mate' assistance as required (usually to recover something only a skinny arm can reach in the engine bay), although I have noticed that the un-requested supervision skills that I offer from time to time often get rejected! Both the car and I celebrate a milestone birthday this year, so Nigel hopes that 1967 proves to be a good vintage for both of the ladies in his life!

The Register trip to Lekkerkerk in Holland in May proved a great success thanks to a lot of hard work by Colin and Doreen Lanning. There is word on the street that next year's trip is already being planned and that North Devon will be 2008's destination, so watch this space for further details!

The MGB Register is in need of volunteers to help marshal its Register parking area at MG Silverstone, so if you are planning to attend this event and can help on either the Saturday or Sunday morning between 9:00am and 12:00 noon (or both) can you please give Bernard Rengger a call on 01858 431271 or e-mail [renggerbj@tiscali.co.uk](mailto:renggerbj@tiscali.co.uk) If you forget to call then please volunteer on the day, any of the Register Committee on duty will be happy to have your help. There's no pay just the satisfaction of doing your bit to help the hundreds of volunteers that make MG Silverstone possible.

Bernard Rengger mentioned in last month's Chairman's comments that a special article on the MGB would appear in the June edition of *Safety Fast!*, but for editorial reasons this will now be held back until the July edition. However we still want your input as requested, so don't wait - get writing and send your bit with pictures to Roger Boys as soon as you are ready!

Refuelling stop at Lekkerkerk, Holland.

We're heading towards the busy time of year so keep your eyes open for the Abingdon Works Centre Summer Day out on 22 July (contact Greg Smith on 01844 351418) and the Midget Register Cotswolds Road Run on 22 September - both events will be supported by the Register, so we look forward to seeing you there!
